

Copyrights Permission Form

Description of the Image(s): The Mayfield Clinic Brain & Spine owns the copyright to the following images:

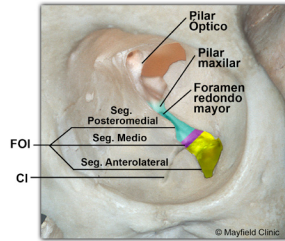

Figure 1.

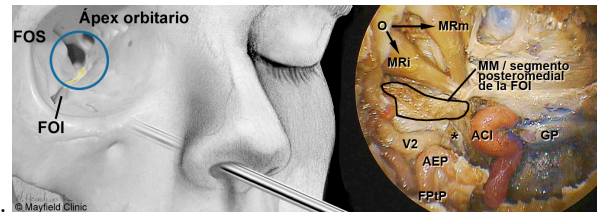

Figure 2.

Description of the Work: Mayfield Clinic hereby grants permission to reproduce the above image(s) for use in the work specified:

- **Article entitled:** Anatomía endoscópica de la unidad estructural Fisura orbitaria inferior - Músculo de Müller (Junción órbito selar medial) y su importancia quirúrgica
- **Authored by:** Juan C. De Battista, Carlos F. Buonanotte, Gustavo A. Foa Torres, Jeffry T. Keller, César Aranega

Fee: none

License Granted: Mayfield Clinic hereby grants limited, non-exclusive worldwide print and electronic rights, including online and PDF versions, in their original form and **only** for use in the work specified. This grant applies to a single printed issue of the periodical. Includes distribution of same issue on publisher's website, reprints, and on annual CD or DVD ROM compendium. Includes translation into all languages. Allows reproduction of the image on the cover and folio of same issue.

Restrictions: Reproduction for use in any other work, derivative works, or by any third party by manual or electronic methods are prohibited. The Publisher does not have the right to (a) sell the Image(s) separately from the Article(s) or separately from the cover of the journal issue in which the Article(s) appears; (b) transfer, license or sublicense the Image(s); (c) alter/redraw the Image(s); (d) share files of the Image(s) except as may be necessary to make the Usage authorized by this License Agreement. License is granted upon receipt of payment in full. Ownership of original artwork, copyright, and all rights not specifically transferred herein remain the exclusive property of Mayfield Clinic. Additional license(s) are required for ancillary usage(s) at additional fees.

Credit: Publisher shall credit the image source as such: "printed with permission from Mayfield Clinic" in the figure legend. Where it appears, the illustrator's signature will remain intact and in view on the Image(s).

Grantee: *Revista de la Facultad de Ciencias Médicas de la Universidad Nacional de Córdoba (Journal of the Faculty of Medical Sciences of the National University of Córdoba)*
